

CLAIMS

What is claimed is:

- 5           1.       A confectionery comprising:
- a bottle shaped container comprising an upper portion and a lower portion, said  
upper and lower portions removeably attachable to each other;
- said upper portion including a solid edible candy disposed thereon extending  
downward from said upper portion into said lower portion when said upper and lower portions are  
10 attached; and
- wherein said upper portion attaches to said lower portion by twisting.
2.       The confectionery of claim 1 wherein at least one of said upper and lower portions  
comprise a set of mating twist attachment elements comprising at least two correlating sets of ridges and  
15 grooves.
3.       The confectionery of claim 2 further comprising corresponding notches.
4.       The confectionery of claim 2 wherein said lower portion includes a flowable confectionery  
20 therein.
5.       The confectionery of claim 4 wherein said edible candy when wetted is coatable when  
dipped into said flowable confectionery and extractable from said lower portion.
- 25          6.       The confectionery of claim 4 wherein said flowable confectionery comprises at least one  
member selected from the group consisting of sugar-based and artificial sweetener-based confectionery.

20072179-020506

7. The confectionery of claim 6 wherein said flowable confectionery comprises at least one member selected from the group consisting of sugar, organic acid, flavor agent, color agent, and flow agent.

5

8. The confectionery of claim 4 wherein said flowable confectionery comprises a luminiferous confectionery.

9. The confectionery of claim 4 wherein said flowable confectionery comprises at least one member selected from the group consisting of gas-generating and gas-releasing confectionery.

10

10. The confectionery of claim 4 wherein said flowable confectionery comprises a fluid.

11. The confectionery of claim 10 wherein said fluid comprises viscoelastic rheological properties.

15

12. The confectionery of claim 1 wherein at least one of said upper and lower portions comprises a rigid material.

13. The confectionery of claim 1 wherein at least one of said upper and lower portions comprises at least one material selected from the group consisting of plastic, glass, wood, and metal.

20

14. A confectionery set comprising:

a bottle shape comprising an upper portion and a lower portion, said upper and lower portions removeably attachable to each other;

said upper portion comprising at least one stem and an item disposed thereon

5 extending downward from said upper portion into said lower portion; and

a flowable confectionery disposed within said lower portion.

15. The confectionery set of claim 14 wherein said stem comprises a cylindrical or a rectangular body.

16. The confectionery set of claim 14 comprising more than one stem.

17. The confectionery set of claim 16 wherein said stems in an adjacent configuration.

18. The confectionery set of claim 14 wherein said stem comprises at least one projection.

19. The confectionery set of claim 14 wherein said stem comprises sidewalls having apertures disposed within said sidewalls.

20. The confectionery set of claim 14 wherein said stem comprises protruding sidewalls.

21. The confectionery set of claim 20 wherein said protruding sidewalls comprise channels disposed between said side walls.

22. The confectionery set of claim 14 wherein said item is edible.

23. The confectionery set of claim 14 wherein said item is non-edible.
